*Proud sponsor of Cheshire Dogs
Home "Urban Building Projects
Ltd"*

Urban Building Projects Ltd have teamed up with Manchester and Cheshire Dogs Home to support the great work that is being carried out by the organisation.

Urban are sponsoring a kennel at the charity, which is about to celebrate its 120th anniversary, a remarkable achievement following its formation way back in 1893.

The charity's Cheshire site has been in existence since 1999. Spread across 11.5 acres, it is a Specialist Care Unit that helps support some of the 7,000 dogs that are taken in every year. The organisation helps to find them adopted homes, but even so, they still have in excess of 250 dogs waiting to find a new family.

Commenting on the sponsorship, Nicky Palmer, Urban's Office Manager, said: "Although it is only a small outlay on behalf of Urban, it is brilliant news that we can help by sponsoring a kennel."

Adding, "As a nation of dog lovers, it is terrible to learn what often happens to unwanted pets, so we fully support the work that is being carried out by Manchester and Cheshire Dogs Home."
