

Urban Buildings Contracts Manager Mike Hannon was given unique access to Warrington Town's pre-season training camp ahead of their assault on The Evo-Stik League Northern Premier – First Division North.

Town have now set up base at the new Orford Park Jubilee Training Hub, which Mike played a key role in developing in his position as a local councillor.

A 30 strong squad of players have been training hard ahead of three pre-season games in a week that culminates in a visit from Premiership club Stoke City to Cantilever Park.

Coach Shaun Reid was recently joined at camp by former England legend, and brother - Peter Reid, with Mike more than happy to show everybody around the facility.

Mike commented, "The £30 million Orford Park Olympic legacy facility is truly magnificent and it is brilliant that the town's football club can make full use of it."

Adding, "It was great to meet the team and also give a special welcome to Peter Reid who was really excited by what he saw. Hopefully the lads can do the business this season."
